

J01 RP-PUBLIC v3 Start Here

Journey	J01 Make AI Adoption Safe
Transformation Motion	TM01 Get Started Safely
Canonical Asset ID	EYW-REL-J01-RP-PUBLIC-STARTHERE-001
Version	v3.1
Owner	Simon Owen / EmPOWER Your World
Status	FINAL
Date	29 September 2026
Authority boundary	No employee-performance use, hidden surveillance, automatic accreditation, external delivery authority, public ranking, unsupported benchmark or causal claim.

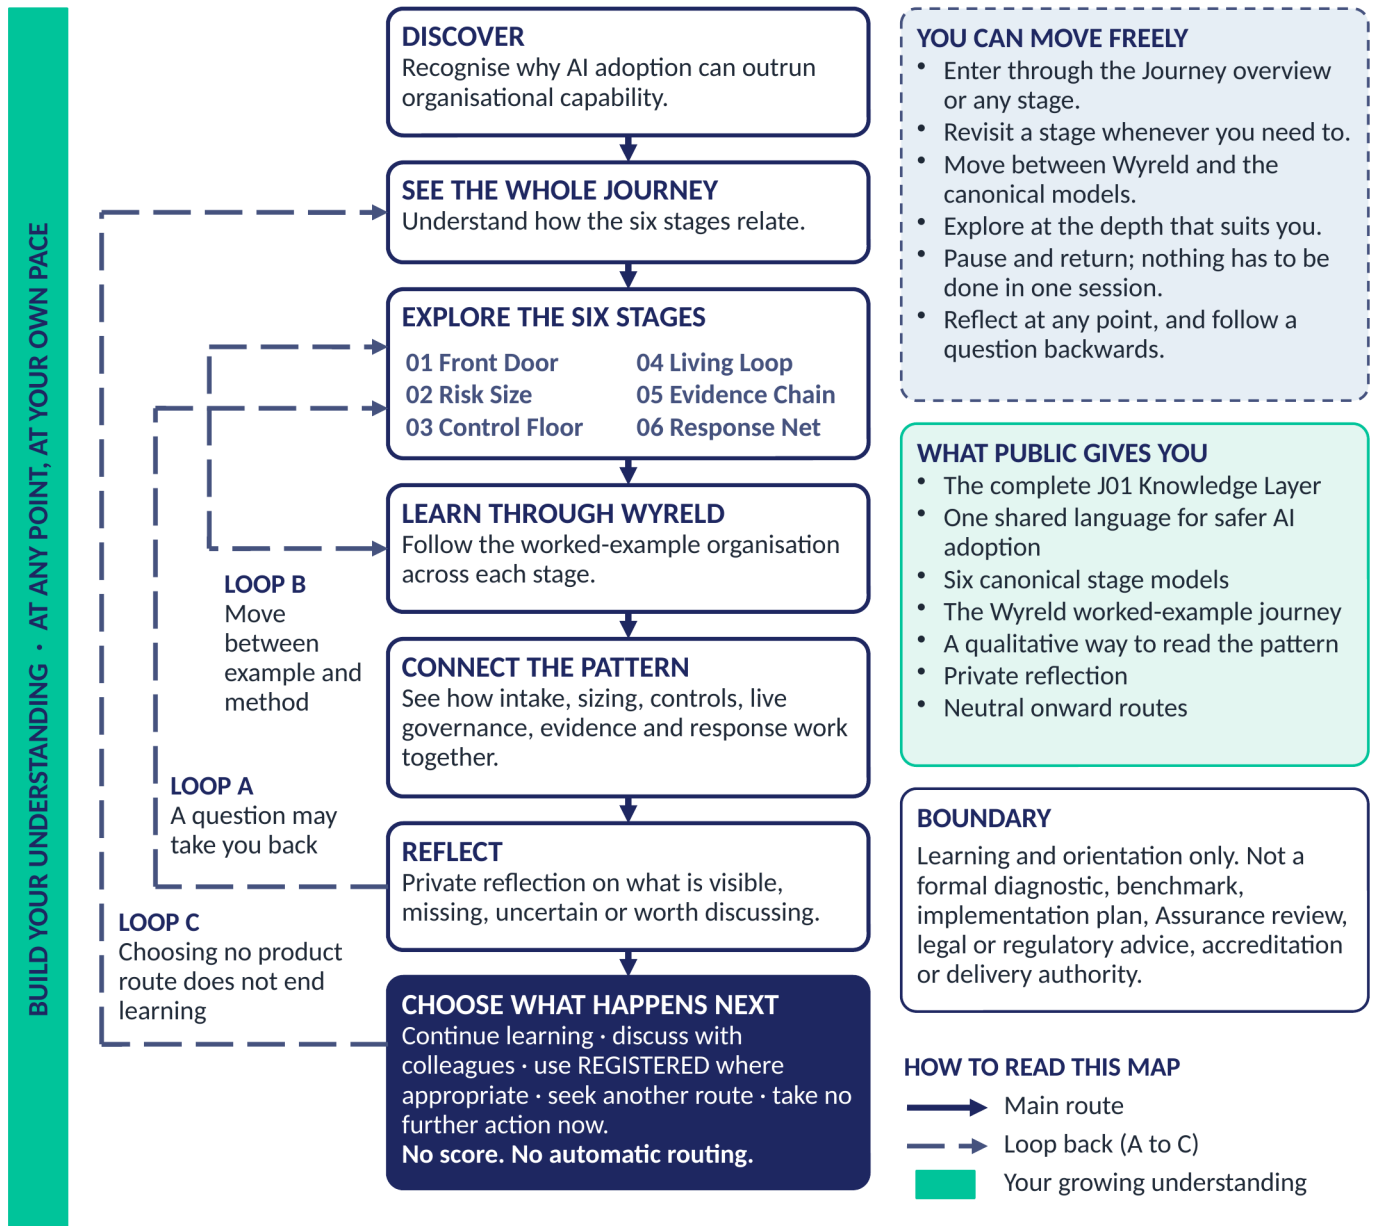

This is the public Knowledge and orientation configuration of J01. It preserves the accepted public Knowledge Layer and adds the v3 L0 Public Journey Check and neutral route. It excludes registered assessment, protected facilitation, implementation methods and L2 assessment.

The next page maps the experience you are about to enter.

YOUR J01 PUBLIC JOURNEY

Explore the complete J01 Knowledge Layer, understand the six-stage approach and decide what the ideas mean for you.

BUILD YOUR UNDERSTANDING Questions • shared language • stage relationships • examples • uncertainty • discussion points • next questions

Reading the journey map

Your PUBLIC journey is a way to understand J01, not a test. You discover why AI adoption can outrun organisational capability, see how the six stages fit together, explore each stage from Front Door to Response Net, follow Wyreld through them, connect the pattern, reflect privately and then choose what happens next. You can enter through the overview or any stage, move between the Wyreld example and the canonical models, revisit a stage when a question takes you back, and pause and return; nothing has to be done in one session. You build your own understanding as you go. There is no score and no automatic routing, and choosing no product route does not end your learning. This is learning and orientation only.

Use boundary

Learning resource only. Not a formal diagnostic, benchmark, assurance review, implementation plan, legal advice, regulatory advice or professional advice. Public access does not confer facilitation, assessment, commercial delivery, accreditation or brand rights.

Contents

Start with	Use
L0 Public Journey Check	Private orientation and reflection
Neutral route	Sustain, deepen, another Journey, no action or redirect
